Location: Patton Borough Council Chambers

Chairman Link opened the meeting at 7PM.

Recited Pledge of Allegiance

Guest George Lubert stated that he has intermittent brown water at his property located at 408 Fifth Avenue. He stated that it mostly happens after heavy rains. He knows last year the Borough Crew did repairs to Jack Short at 413 Fifth Avenue. Guest Lubert then stated that his theory is when they fixed Jack Shorts line, it may have caused the water issues. Secretary Dunegan stated that there may be a small water line break that could be causing that. Vice Chairman Wood stated that on Fifth Avenue he noticed water in front of Sopata's 508 Fifth Avenue, it was dry everywhere else. General discussion took place. Secretary Dunegan stated to Mr. Lubert to try to flush out his hot water tanks, which may help clear the brown water. Secretary Dunegan stated that the water sample Mr. Lubert brought to the Borough Office, was mostly clear water, but then iron bacteria would form. Chairman Link stated that we will have somebody from the Borough Crew take a look at it.

A short discussion took place unrelated to the meeting.
