2026 Rates

Dear Customer:

Below please find the 2026 rates for water and sewer in Patton Borough.

Due to increasing electrical cost from both Penelec and REA Electrical 13% per increase in (the utilities that provides electrical services to the treatment facilities) the water and sewer base rate will be increasing $1.00 each per month to assist in off-setting the increases be passed on the facilities electrical charges.

Beginning the January 2026 Bill (received in Feb. 2026 due by February 28, 2026) water and sewer bills bill will be based on the following rate structure per EDU (Equivalent Dwelling Unit): Water: $49.00 for 0 to 5000 gallons of water with $5.00 added on for every additional 1000 gallons thereafter for each unit/ EDU. Sewer : $47.00 for 0 to 5000 gallons of sewer (based on water usage) with a $5.00 added on for every additional 1000 gallons thereafter for each unit EDU.

Replace Sewer Lateral from Property Line to Main Connection Requested by Customer
Actual Cost Incurred by Borough/ Authority.

An inactive account is defined as any property where sewer or water service is available at the tap that does not have the water service active for an entire month. As long as there are availability of service and the taps for the property have not been relinquished back to the Patton Borough/ Patton Municipal Authority regardless of the installation of piping or not or condition of piping or not these fees will be due monthly and added on monthly.

In areas where water services were not available before once taps are approved the fee will be due as an inactive fee until the water is turned on at the tap for water then at that time it will be considered active. In the case where sewer services were not available before once taps are approved the service will be considered active regardless of the installation of sewer lines.

Availability of service is any property where a structure existed or exist that has an active water and/ or sewer main that can or may be connected to or was connected. If these conditions do not exist the Patton Municipal Authority will determine when a new tap is requested if service(s) are available or not.

Water Fee on Inactive Account (Full Month Of Inactivity / Service Off at Tap)	$30.00
Sewer Fee on Inactive Account (Full Month Of Inactivity / Service Off at Tap)	$28.00
Sewer Corrective Action Fee on Inactive Accounts	$ 5.00
Total Per Month	$63.00

Commercial Vacancy Credits
When a unit is vacant for an entire month, commercial vacancy credits will still be available (to each commercial/ rental properties with two or more units that are vacant. Single unit buildings or cannot take advantage of this policy.)
To take advantage of the vacancy credit policy property owner must notify the Borough Office each month of how many of units are vacant to receive the credits. No structure will be billed for less than one unit. All accounts must be current to take advantage of this policy. Delinquent accounts will not be afforded vacancy credits; therefore any account is past due you will be billed for all units regardless if they were vacant or not.

For Example: February service is billed in March. All vacancy credits must be received for February before March 1st.

Inactivity includes being off due to vacation, second residency, delinquency etc.
Partial Months of Inactivity will be subject to full rates.

Bounced Check, Bad Check, Returned Check, Insufficient Fund withdrawal, etc. $50.00
